Specification

Player

L4

V2.1 2019 Mar

LINSN TECHNOLOGY

Summary：

L4 is a sync/async player released by Linsn. It supports up to 1.3 million pixels and releasing program via flash drive/Cable / WIFI /4G and so on.

Official website: www.linsn.com
Add：Floor 15&16, Jiajiahao Business Building, No. 10168, Shennan Blvd, Nanshan District, Shenzhen
Tel：4008836968/+86-0755-86183590/+86-0755-33209618

Features：

1. Supports up to 1.3 million pixels;
2. Two network port outputs; one for output, the other for backup;
3. Supports HDMI input;
4. Supports display via USB flash drive and LAN;
5. Supports Wifi, Wifi hotspot, Ethernet and 4G (optional) transfer;
6. Supports setting up LED screen over network;
7. Supports multiple content formats;
8. Supports temperature and brightness sensor;
9. Supports multiple content formats.

LINSN TECHNOLOGY

Interface：

Reset	Restore to factory setup
WIFI	Switch for WIFI
AP	Switch for WIFI hotspot
AP	Indicator for WIFI hotspot
RUN	Indicator for LED output
PWR	Indicator for power
4G	Indicator for 4G
WIFI	Indicator for WIFI
SYS	Indicator for system
SD	SD card
SIM	4G card

LINSN TECHNOLOGY

TEMP	Temperature sensor
LIGHT	Brightness sensor
4G	4G antenna
WIFI-AP	WIFI hotspot antenna
WIFI-STA	WIFI antenna
LAN/WAN	LAN/Internet
USB	Play via USB flash drive
HDMI IN	HDMI Signal Input
Audio OUT	3.5mm audio output
LED OUT	For connecting LED screen, max supporting 650 thousand px
BACK UP	For connecting LED screen to backup, max 650 thousand supported
ON/OFF	Power switch
